## Mineral Skin

---

With its technical & aesthetic properties, Mineral Skin, thin & colourful, is suitable for your new construction or renovation projects!

This mineral micro-mortar, composed among others of natural lime, was developed 25 years ago to make real technical progress in the market of coatings. Waterproof in its mass, Mineral Skin has evolved towards more aesthetics & creativity, thanks to the infinite play of colours & possible effects.

A sensual material, Mineral Skin follows all forms & offers a continuous 'polished concrete' look to your surface.

## Characteristics & Technical Information

---

Adhesion, flexibility & thinness: Adhering to many undergrounds Mineral Skin can be used to cover tiles, MDF & cement without demolition! Its application in thin layers facilitates the realization of your projects.

Impermeable & hard wearing: Thanks to its unrivalled resistance to abrasion, Mineral Skin has a very advantageous lifespan! In addition, this material with 'polished concrete' or 'tadelakt' aspect is waterproof.

Coating: Applied continuously, Mineral Skin provides a seamless and infinitely customizable result through its pigmentable neutral basis.

- ☒ Continuous & infinitely customizable
- ☒ Density NBN EN 1015-10 : 1020 kg/L
- ☒ VOC Content: <0.002%
- ☒ Compressive Strength: 32.2 N/mm<sup>2</sup>
- ☒ Bending Strength: 9.83 N/mm<sup>2</sup>
- ☒ Adhesion: 3.42 N/mm<sup>2</sup>

## Floors & Stairs

---

With Mineral Skin multi-surface coating, such as micro cement or Tadelakt, everything is possible. Open up your spaces with continuous surfaces. Renovate your rooms with taste, thanks to adjustable colours & incomparable renderings. Overcome technical constraints & obtain a result that meets your desires, both inside and outside.

## Wet Rooms

---

Design the wellness area or bathroom of your dreams with seamless showers, tubs, steam rooms & sinks with a Mineral Skin continuous coating. Its mineral aspect is pleasant to the touch & warm to the eye. Its 'micro cement' finish adds character to your plumbing fixtures for a modern and cosy atmosphere.

# Walls

---

With a Mineral Skin multi-surface coating, give free rein to your creativity in your construction or decoration projects with a wide range of colours & effects (wood, stone, rust). Your wall surfaces, ceilings & decorative works will take on the style of your dreams thanks to five types of grains & their rendering from rough to glossy.

# Furniture

---

Opt for customised furniture by making your tables, headboards, worktops, kitchen or bathroom counters & vanity units with a Mineral Skin coating. Shape & structure, shade, rendering, touch: everything is possible to make your spaces unique!
